Eurasian Financial and Economic Forum in Shanghai 2025

Program of the events

I. Background and Forum subject:

Going deep into the initiatives «One belt, one road» and «the Greater Eurasian Partnership», the necessity of the cooperation between Russia, China and other Eurasian countries arises, including such fields as financial technologies, industrial investments and cultural integration as well as effective integration of forces and resources of all sides to create a multi-level and multi-functional mechanism of exchange and cooperation, a dialogue platform for Eurasian countries in promoting digitalization, environmentalization and internationalization. Eurasia being one of the poles of world-wide economic growth in the cooperation with China will have a significant impact on regional and even global economic landscape.

Main subject:

**«Financial activation, technological progress, branch cooperation and cultural relations networking.
Creation of a new ecosystem of high-quality cooperation between Europe and Asia»**

Main issues of sessions:

Financial cooperation:

Green finances and new ecosystem of digital payments, mutual acknowledgment of green financing standards and transborder investments, digital yuan and innovations in transborder settlement system, financial leasing as an assistance of industrial capacity transfer process.

Technological cooperation:

AI and intellectual health care lead to new productiveness.

Use of artificial intellect in industrial automatization and healthcare diagnostics.

Cooperation between economics of low altitude and intellectual logistics (for instance, drone delivery and

aviation infrastructure). Mechanism of joint items development and technologies delegation (under consideration – cooperation of China and EU in the field of AI researches).

Industrial investments:

Delivery chain in automobile industry and production of high-tech equipment.

Chinese and European railway express train and integration of regional industrial chain (successful cases of car and electromechanical equipment export).

Cooperation in the field of oil and mining equipment technologies (allocation of Sinopec machinery abroad).

Energy transport model and local production (for instance, Chinese and Belarusian industrial park in Belarus).

Cultural cooperation:

Historical memory and mutual education of civilizations.

Collective celebration of the 80th anniversary of the Victory over fascism (recreation of heroic path, cultural events, etc.).

Exchange and cooperation on Eurasian market of dramatic arts.

Youth exchange programs (students exchange programs, joint research projects).

II. Summit dates and venue
